

EMAIL ARCHIVING

Long-term email archiving and eDiscovery system.

ExchangeDefender Email Archiving provides a secure environment to store, and index your mailbox, and keep it accessible for up to 10 years. eDiscovery of sensitive data helps automate your compliance reports and Data Protection Officer DPR/DPO inquiries.

100% Data Capture

CA automatically archives and indexes all email - inbound, outbound, and interoffice.

Fast eDiscovery

Sort and search through thousands of emails at once with our fast one-click search tool.

Message Protection

Ensures that messages are not tampered with, deleted or otherwise hacked to hide data leaks.

DESIGNED TO HELP YOU:

- Meet U.S and EU compliance requirements for email
- Process eDiscovery and audit requests faster
- Secure intellectual property
- Increase work productivity and company oversight

TOP FEATURES:

- Always on, and secure
- Up to 10 years archiving
- Achieve regulatory compliance
- Mail journaling
- O365 integration
- Tamper-proof
- Compliance manager tools
- Layered redundancy

KEY BENEFITS OF EMAIL ARCHIVING

Unlimited Storage

CA offers unlimited storage. Our clients save up to 60% of their daily email storage space.

Comprehensive Reporting

Compliance Officer controls have full reporting, and saved searches for quick and consistent discovery.

Service Implementation

We configure, manage, and support your email archiving and data retrieval.
